

E. SAMPLE OUTPUT:

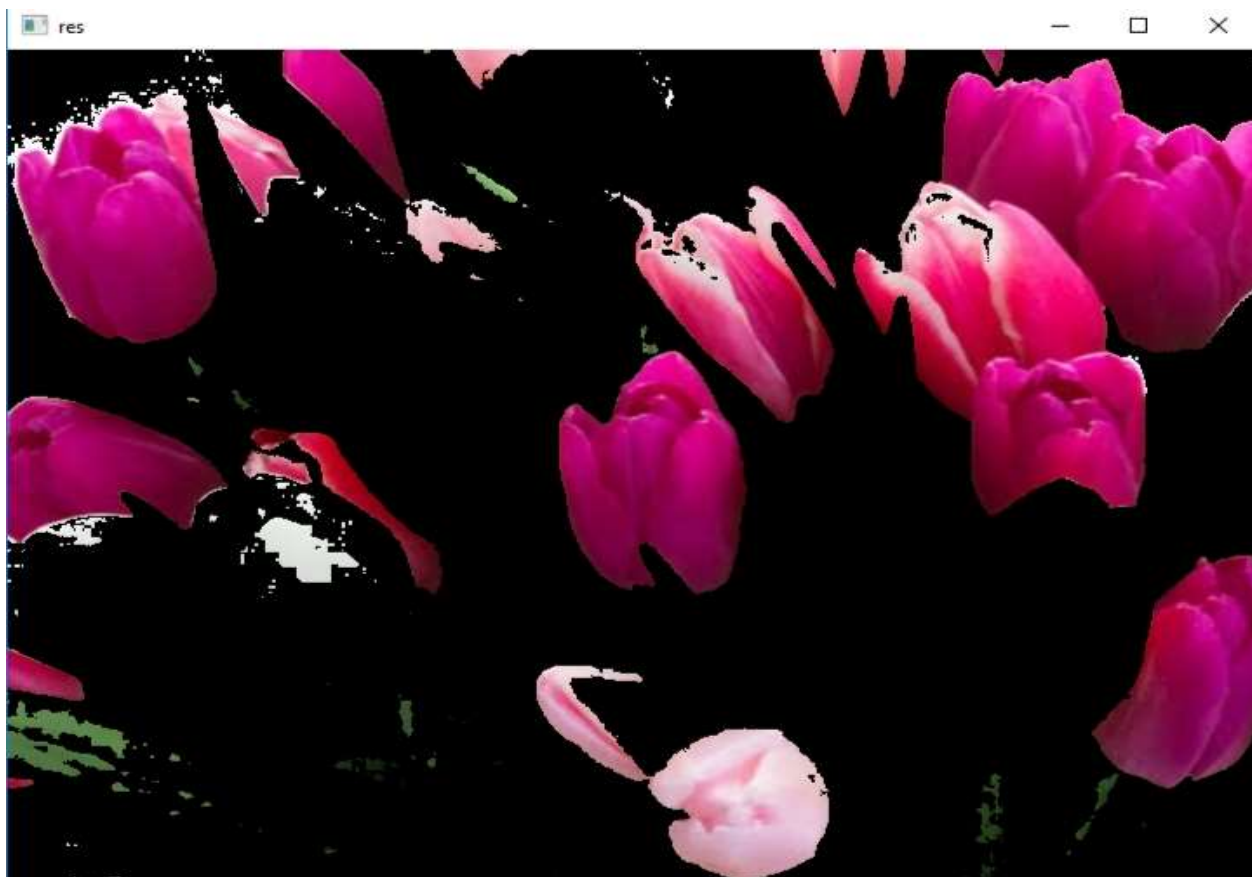

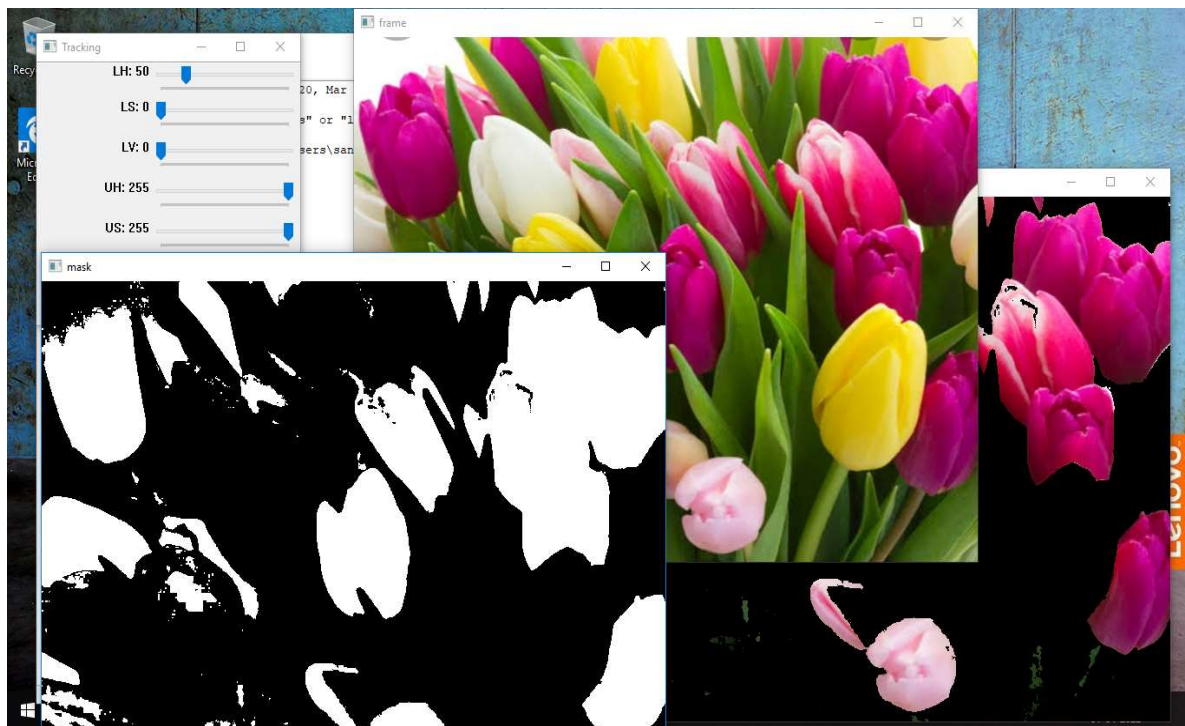

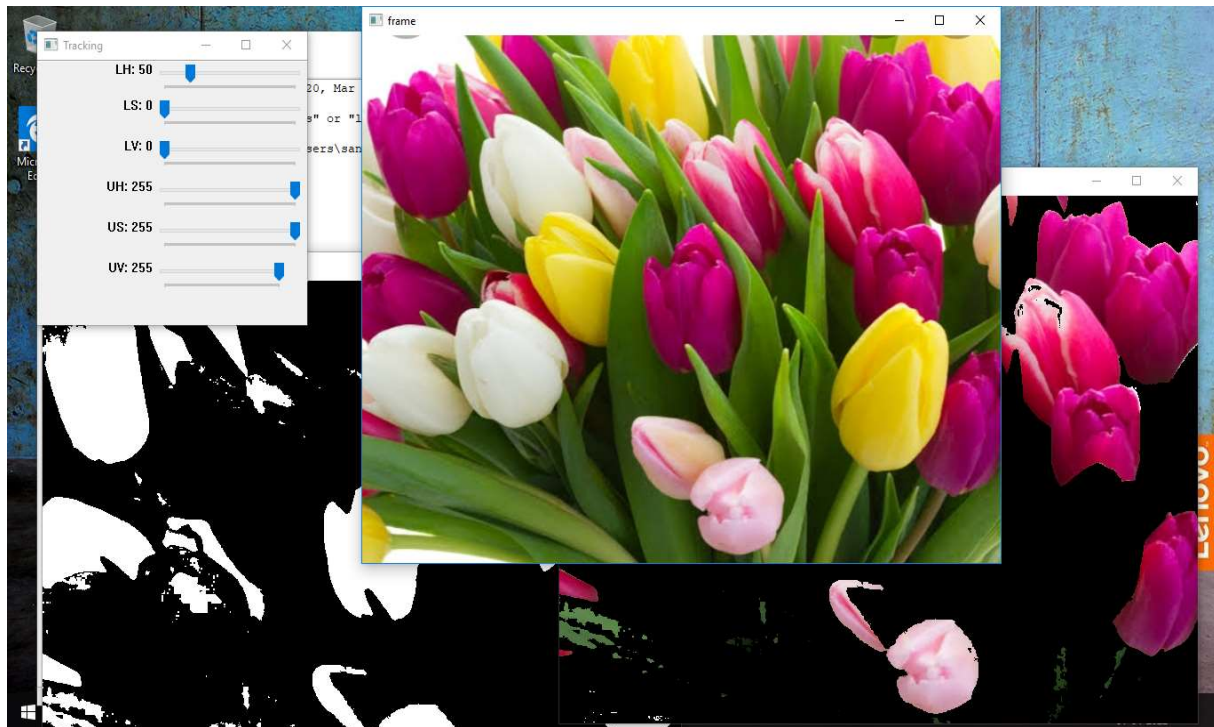

mask

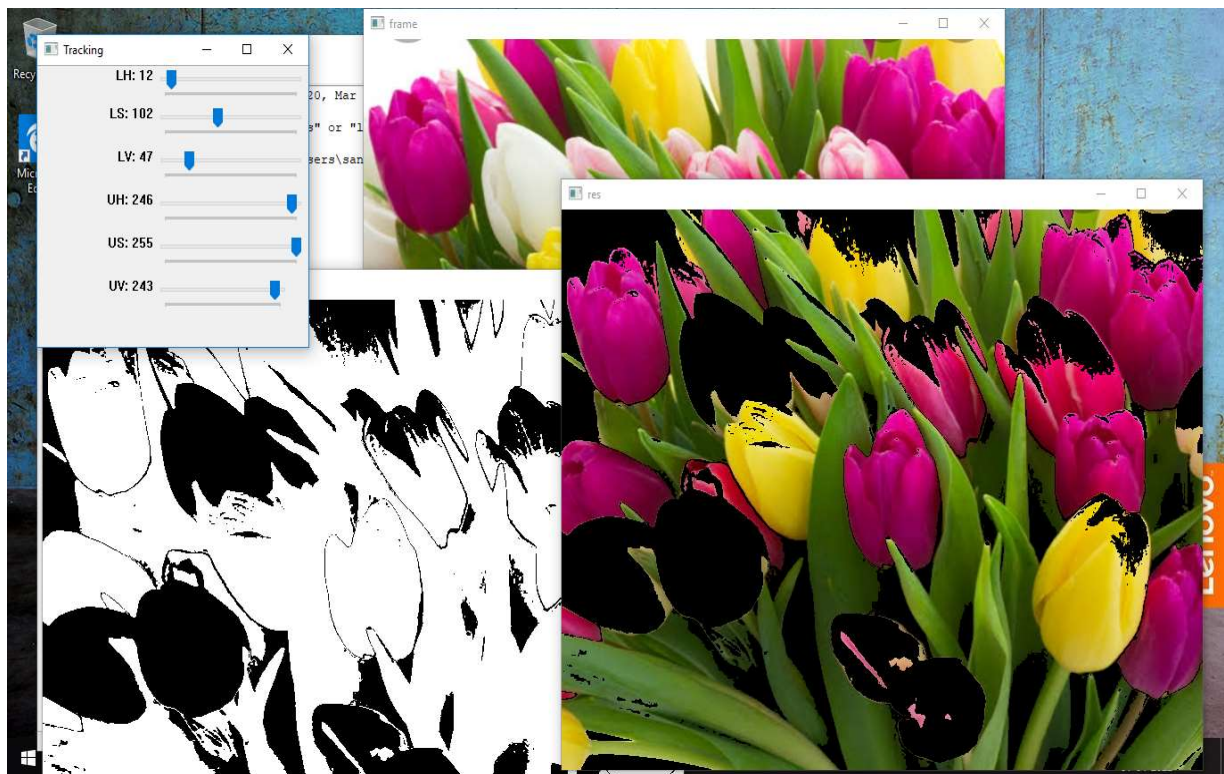

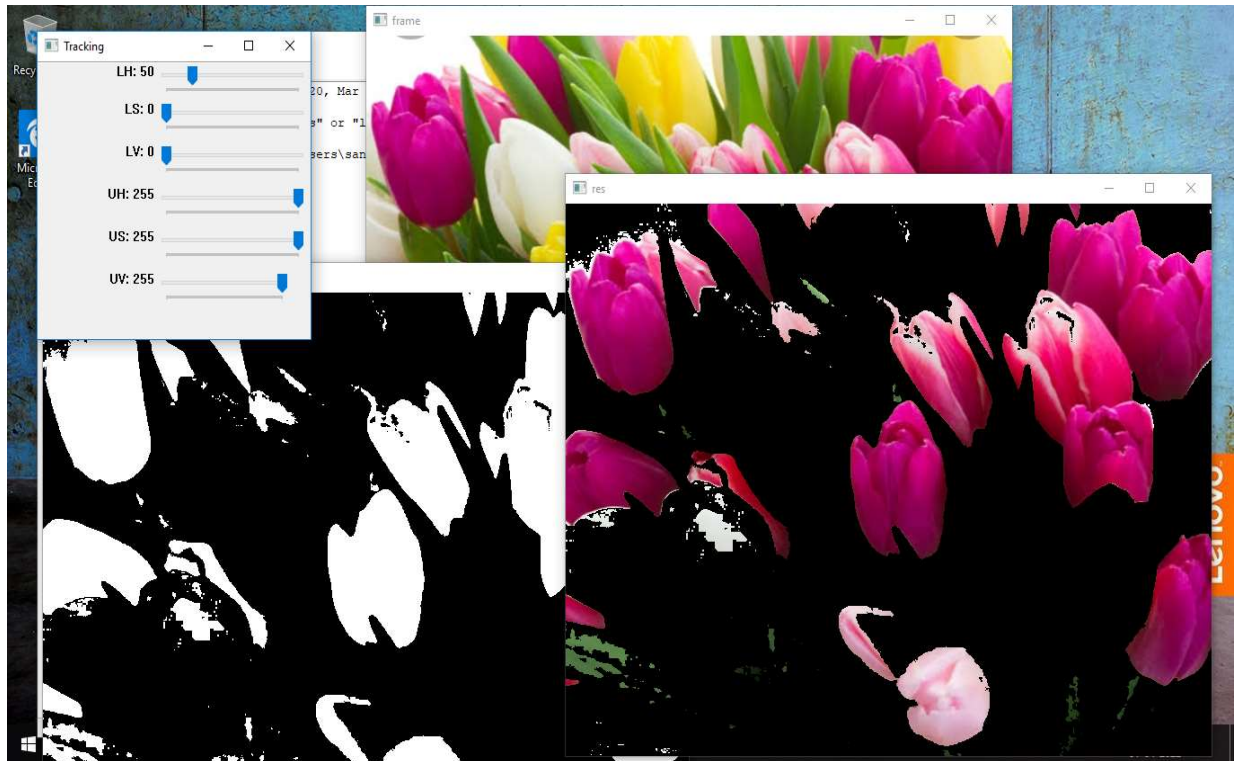

A screenshot of a window titled "Tracking" with a blue title bar and standard Windows-style controls. The window contains a list of six variables, each with a numerical value and a slider control. The variables and their values are: LH: 61, LS: 238, LV: 178, UH: 121, US: 255, and UV: 255. Each variable has a slider bar with a small shield icon at the end. The sliders are positioned to reflect the current values: LH is near the left, LS is near the right, LV is in the middle, UH is near the left, US is near the right, and UV is near the right.
